System Components

Stand
 Pole (1, 2, 3 or 4)
 Rail (1 or 2)
 Carry Bag (up to 200cm)
 Box
 Options: Pole extension 35cm,
 Hard shipping case

Graphic Dimensions

Banner cut size
 60cm: 1900mm x Width
 80, 85, 100, 120, 150, 200cm: 2290mm High x Width
 240, 320cm: 2490mm High x Width

Visible Size
 60cm: 1760mm x Width
 85, 100, 120, 150, 200cm: 2150mm x Width
 240, 320cm: 2350mm x Width
 (Minus rail)

Design your banner at a maximum visible print size of 2150mm high less 16mm for rail, on a total banner height of 2290mm. Pole extension option increases banner height by up to 35cm. For our 60cm wide stand reduce banner height by 39cm.

240cm and 320cm models, banner height is 2350mm including 12mm in the screw-on rail.

Users can be assisted in avoiding damage to graphic edges when using the stand, by reducing the width of the mounted banner by 1cm to reduce the risk of contact with stand ends whilst extending and retracting the banner. Careful users do not need this precaution, but careless ones will benefit from it.

Thin or slippery banners may need added thickness at the top for snap-on rail achieved by adding a strip of masking tape or similar to the back of the banner before fitting the snap-on rail.
