THE PREPARATION OF PRODUCTION FILES

Our company is prepared for different types of files, but PDFs are preferred.

Production files should be prepared as follows:

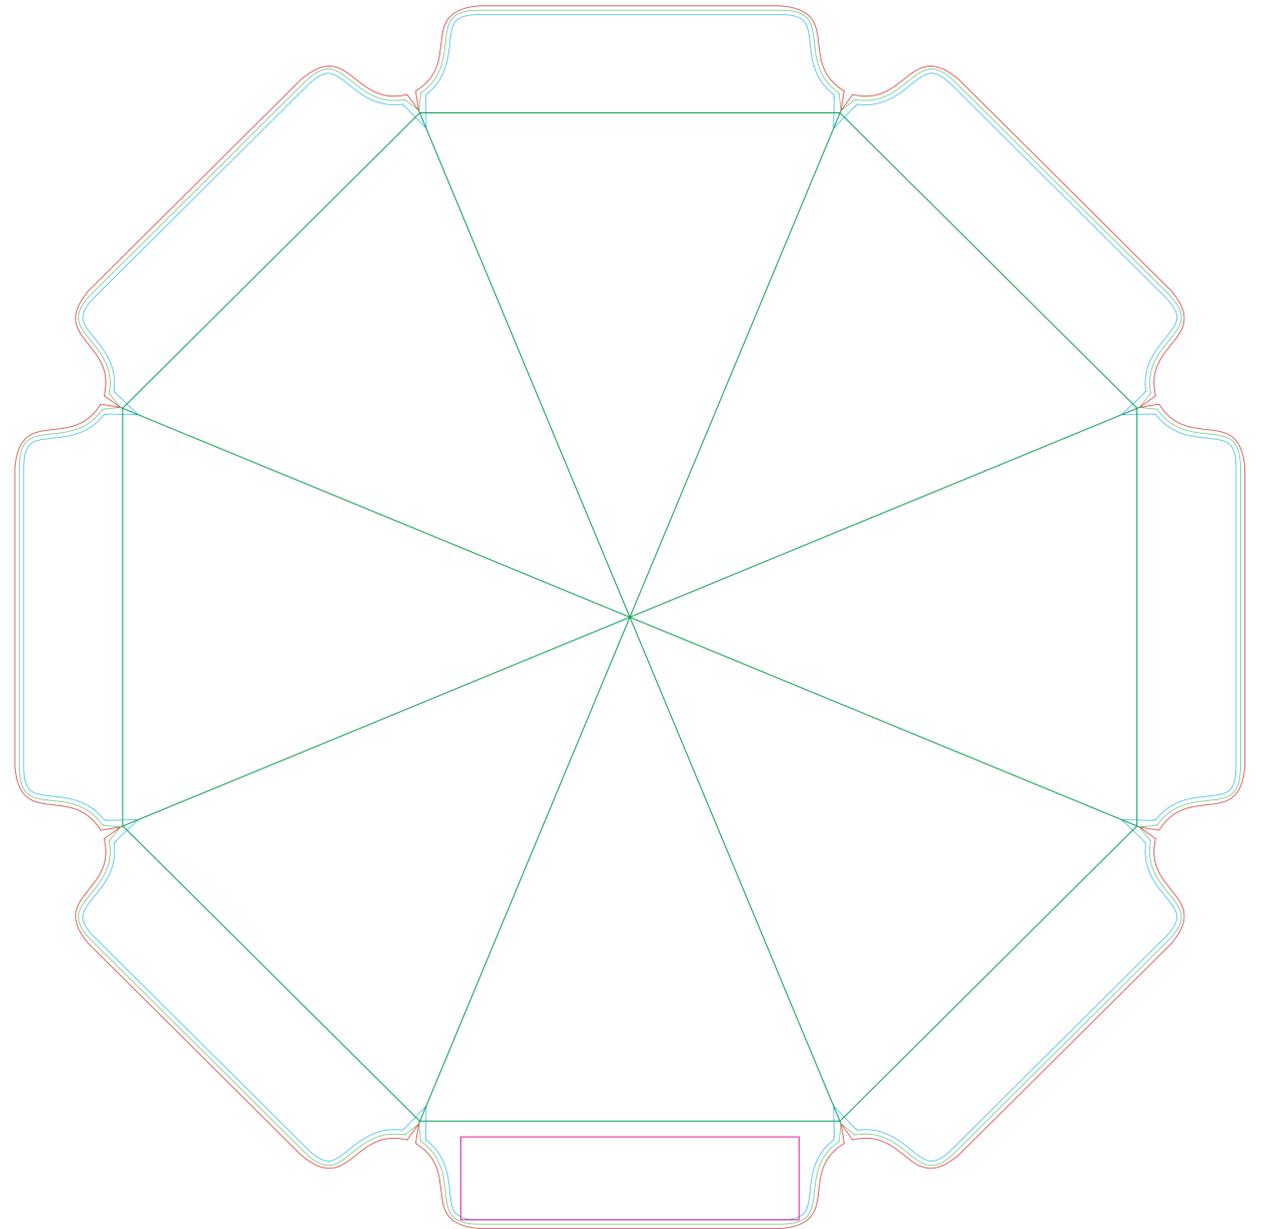

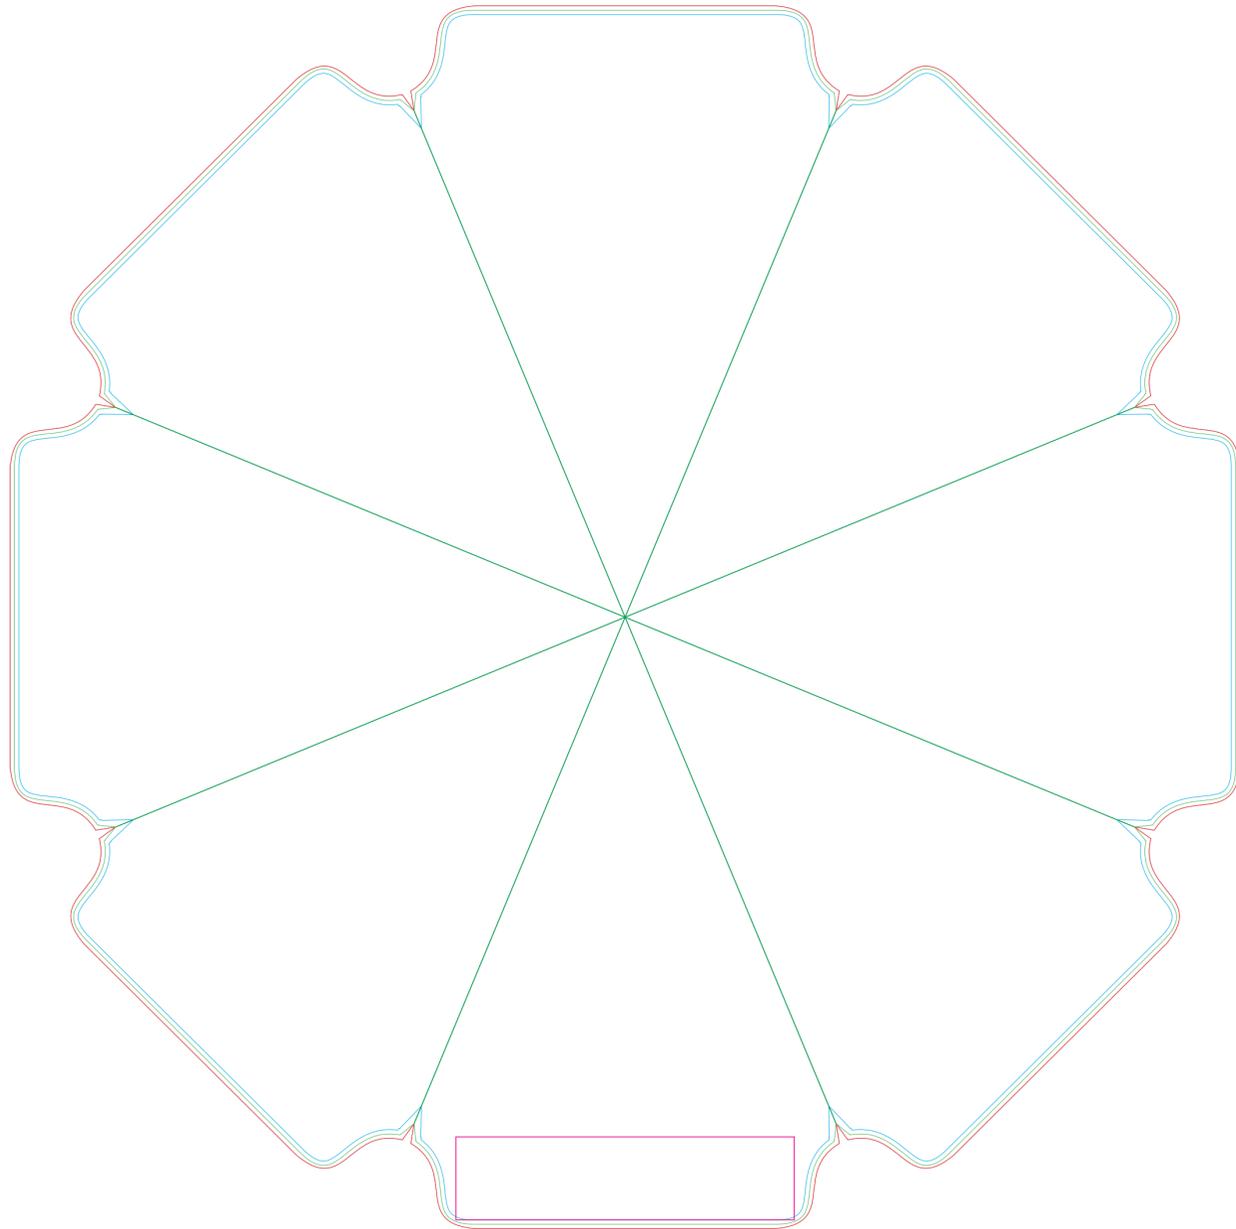

- the text should be curved,
- colors in the project in the CMYK palette,
- the outline of objects should scale with graphics so that it does not bold or slim down during scaling,
- all bitmaps should have at least 100 dpi in a 1:1 scale

In exceptional cases, we may ask you for a different file format or to provide us with other files (each element separately: background, logo, etc.), of which the graphics are composed.

MODEL 1

Scale 1:10

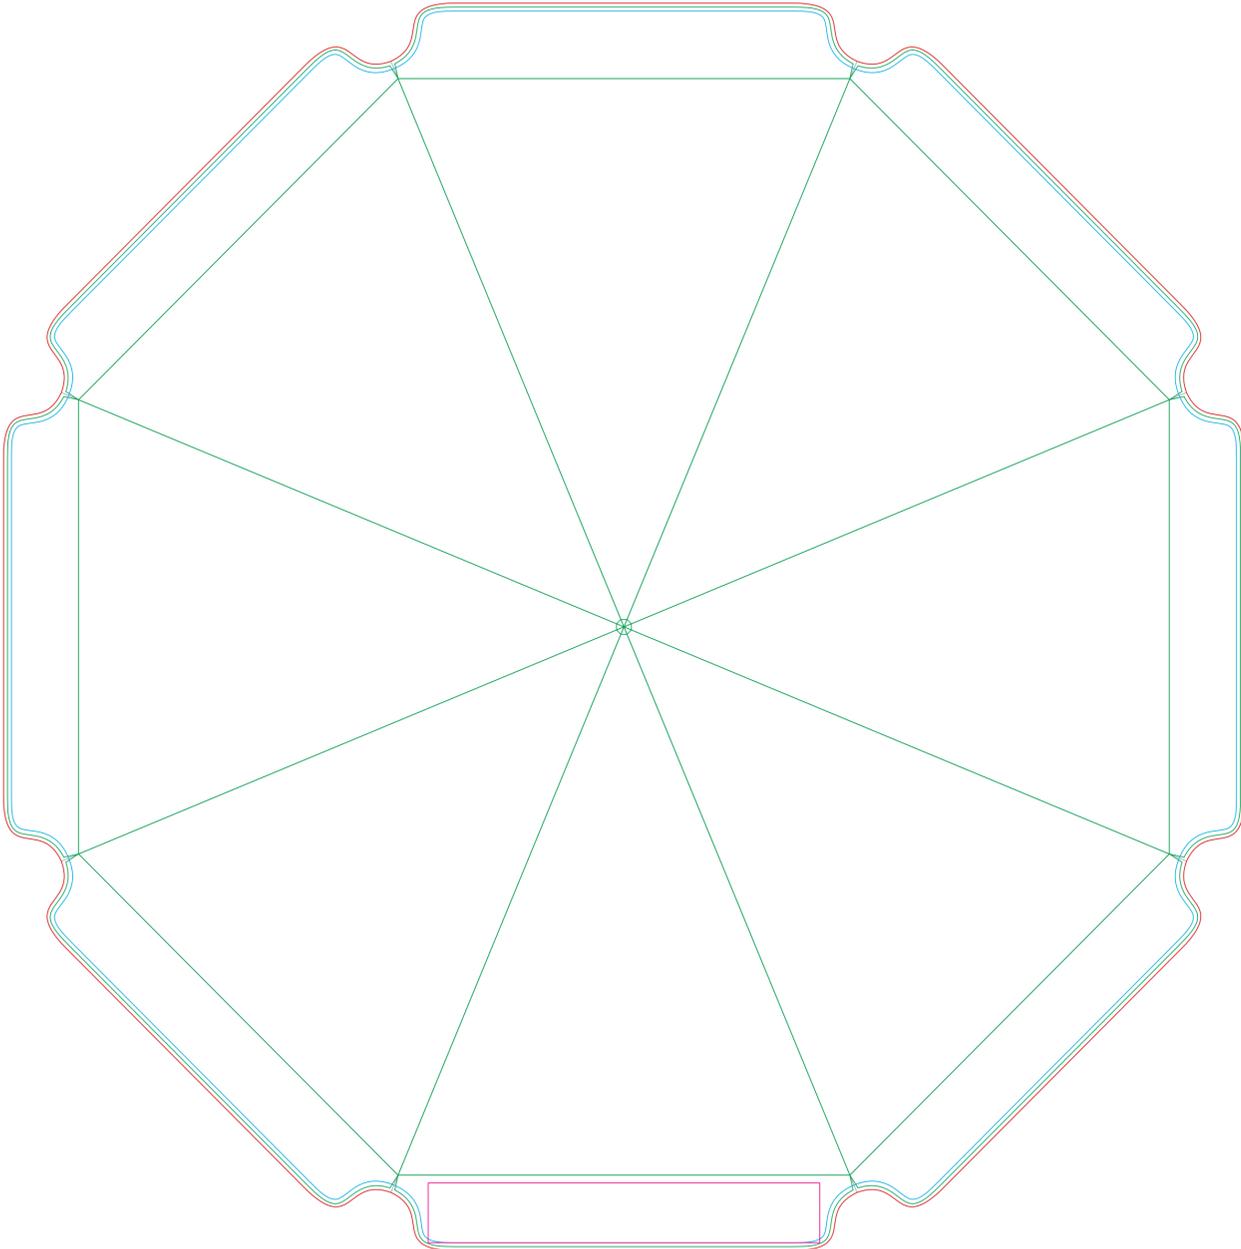

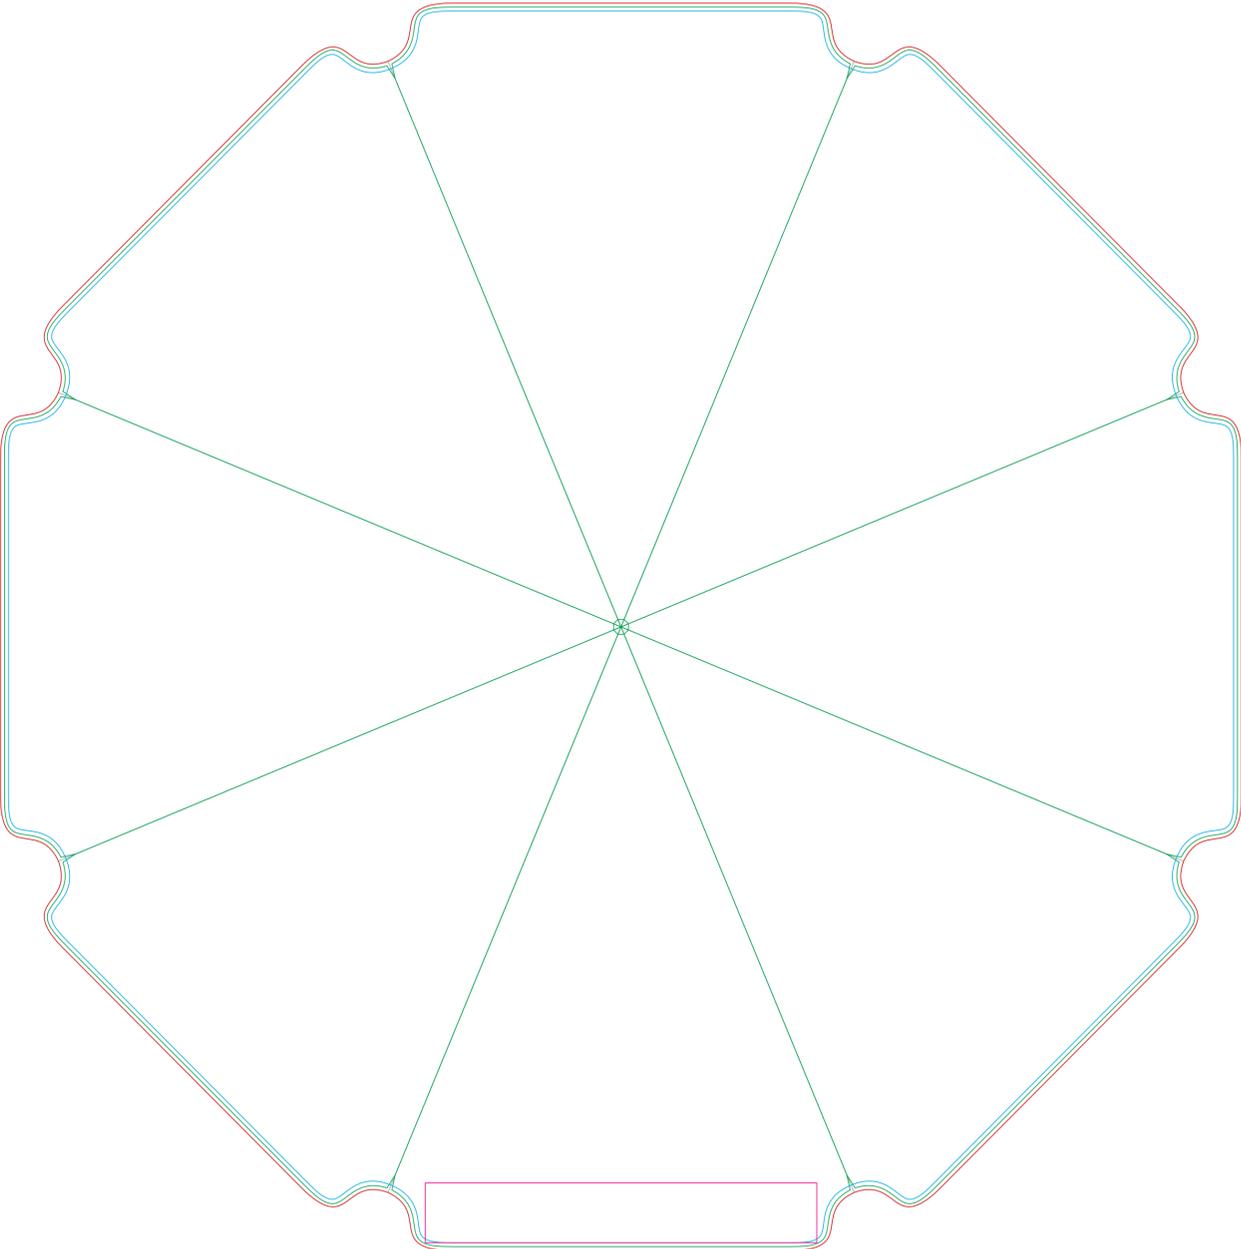

- SAFE GRAPHIC SPACE
- SEWING LINES
- FULL SPACE FOR GRAPHIC
- BEST LOGO POSITION ON VALANCE

MODEL 2

Scale 1:10

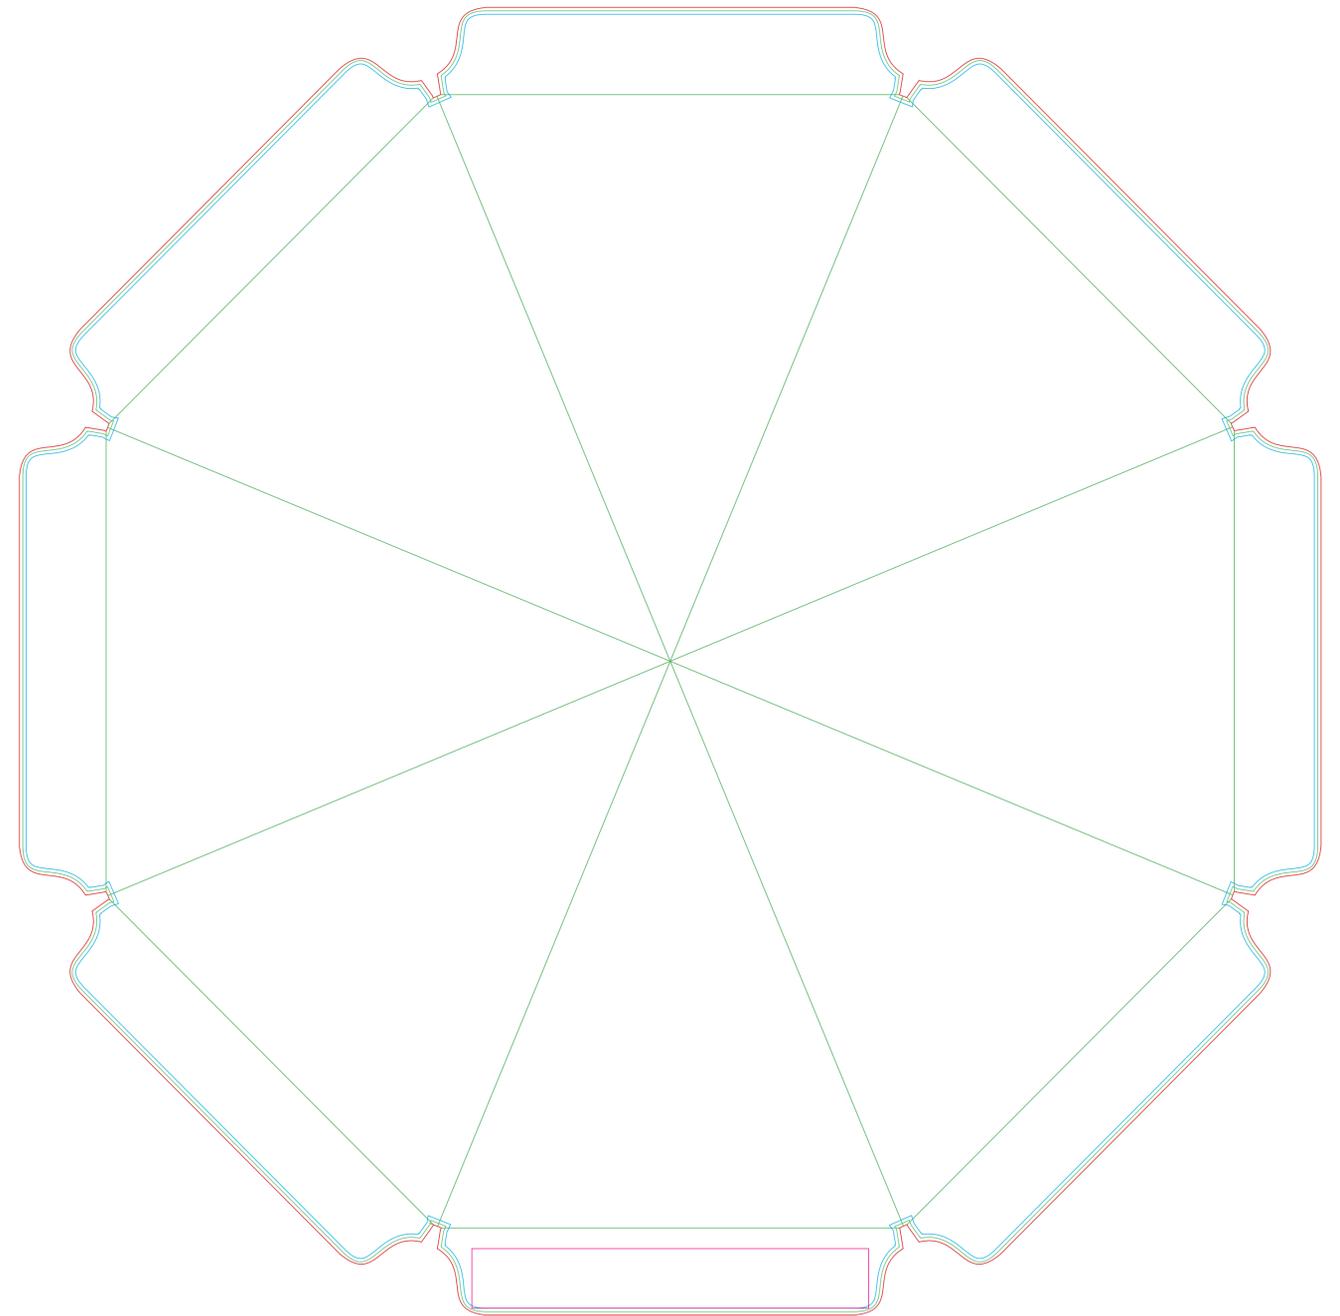

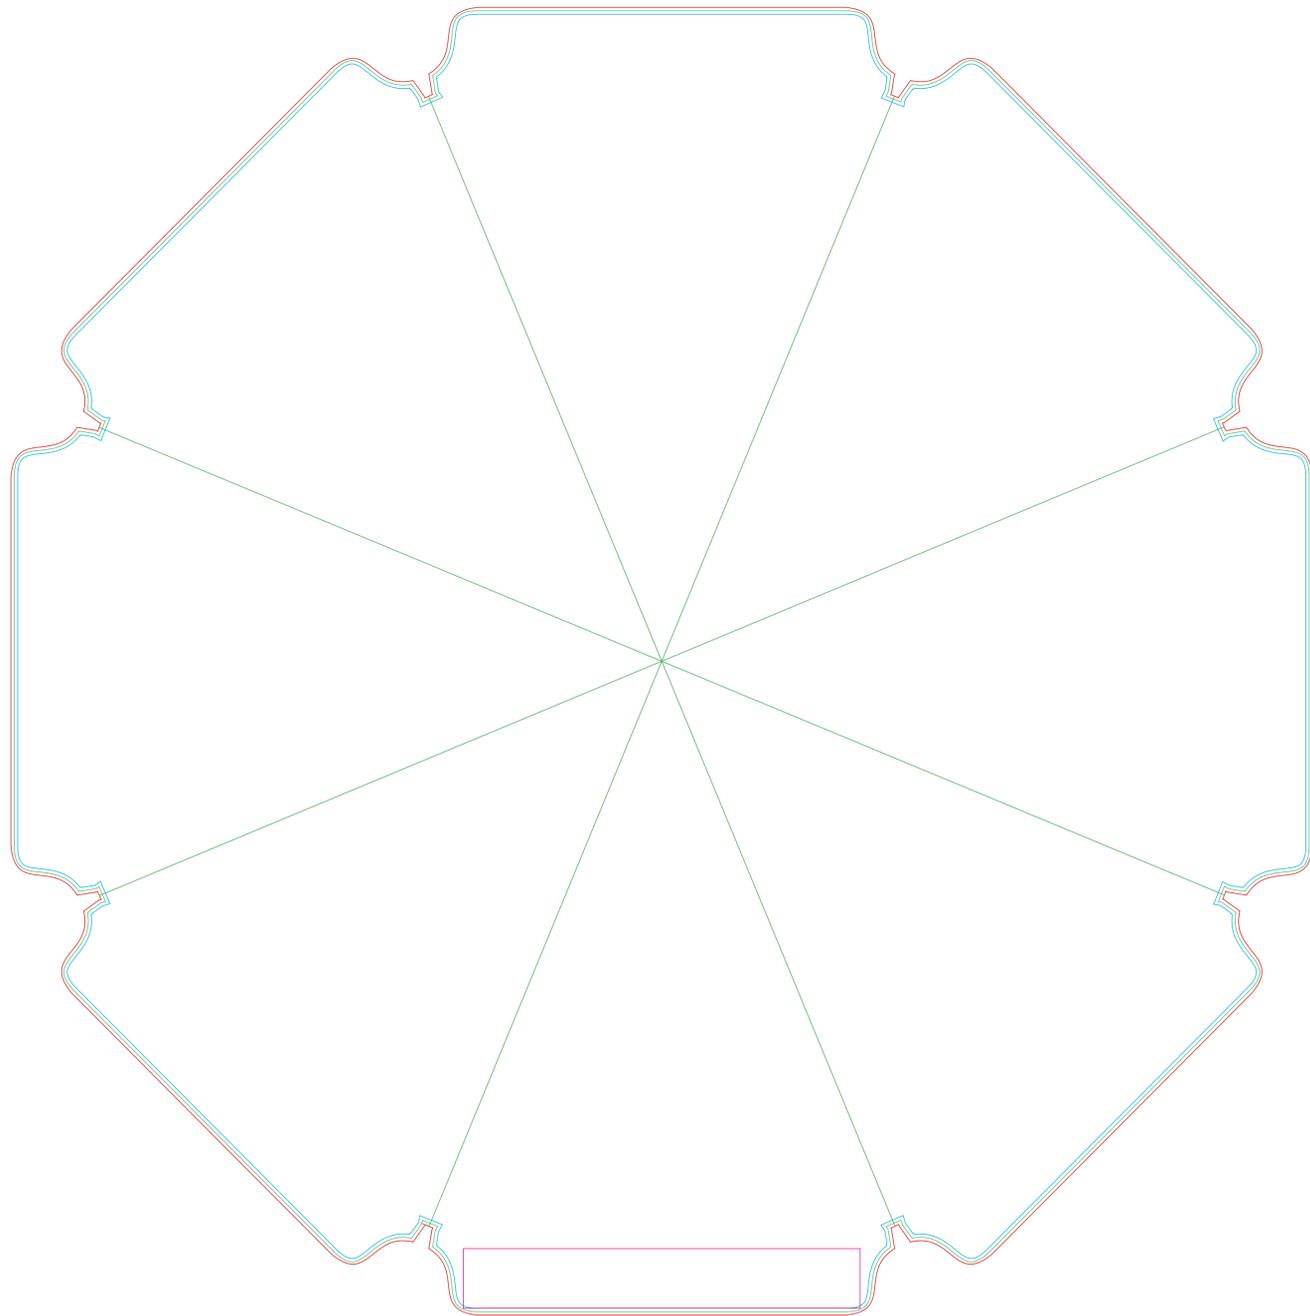

- SAFE GRAPHIC SPACE
- SEWING LINES
- FULL SPACE FOR GRAPHIC
- BEST LOGO POSITION ON VALANCE
